## Education

### Georgia Institute of Technology

Master of Science in Computer Science (In Progress)

Atlanta, GA (Online)

Expected May 2028

### University of Florida

Bachelor of Science in Computer Science

Gainesville, FL

Dec. 2022

## Experience

### Software Engineer II

J.P. Morgan Chase & Co.

Aug. 2023 - Present

Jersey City, NJ

- Strengthened trade settlement and client money controls across a platform serving 1,000+ users by modernizing a legacy post-trade system with a new React UI.
- Accelerated UI component delivery and improved platform reliability across thousands of daily trades by building reusable, well-tested JavaScript components and automating repetitive coding tasks with GitHub Copilot.
- Enabled consistent, on-time feature delivery across a globally distributed engineering org by owning UI features end-to-end and maintaining Agile workflows via CI/CD, Bitbucket, Jenkins, and Jira.

### Global Data Analyst Intern

Bloomberg L.P.

Jun. 2022 - Aug. 2022

Princeton, NJ

- Cut manual review time by 10+ hours/week by designing and deploying an automation pipeline for bank-loan submission analysis, improving data consistency across teams.
- Delivered high-performance analytics across 200+ derivative exchange data categories by building a Python microservice integrated into Qlik Sense dashboards for real-time decision-making.
- Automated Bloomberg News housing-market story generation by building a Python workflow aggregating National Housing Price Index data at state and regional levels.

### Teaching Assistant, Intro to Software Engineering

University of Florida

Jan. 2022 - Apr. 2022

Gainesville, FL

- Improved Agile proficiency and project delivery for 24 students as measured by successful end-to-end web application delivery across 5 teams by leading weekly discussion sessions on Agile practices, product planning, and execution strategies.
- Accelerated learning outcomes for 5 Agile development teams as measured by on-time project delivery each semester by providing hands-on coaching and structured feedback throughout the development cycle.
- Strengthened foundational software engineering skills across 300+ students as measured by course completion and engagement by partnering with the professor to co-develop and deliver core curriculum lessons.

## Projects

### CRRNT | React Native, TypeScript, FastAPI, Python, Claude SDK, Supabase

April 2026 - Present

- Building a mobile app pairing trending news with stock tickers, AI market insights, price charts, and audio playback. [github.com/Mikay8/CRRNT](https://github.com/Mikay8/CRRNT)

### Sorority Event Tracking Platform | React, TypeScript, Express, Node.js, PostgreSQL

Jan. 2025 - Present

- Building a full-stack web app to streamline event planning, RSVPs, and attendance tracking for sorority chapters. <https://sorority-tracker-mikayla.replit.app/>

## Certifications

Amazon Web Services Cloud Practitioner - Issued 2024

## Technical Skills

**Languages:** JavaScript/TypeScript, Python, Java, HTML/CSS, SQL

**Frameworks:** React, React Native, Next.js, Node.js, Angular, Express, MongoDB

**Developer Tools:** Git, GitHub Copilot, CI/CD, Bitbucket, Jenkins, Jira, Bloomberg Terminal

**Design Systems:** Salt UI (open source)

**Other:** Qlik Sense, Tableau, AWS, WordPress
